

DSR-TKA: Rolling with the times

Page | 1

Even though Delta Sigma Rho-Tau Kappa Alpha (DSR-TKA) has gone through many changes over the past few years, we are still embracing opportunities to best serve the greater forensic community. At the 2015 NCA Conference in Las Vegas, leaders from several national forensic organizations presented survey results from our membership. The data gathered about DSR-TKA was slightly discouraging as most participants either did not know the organization existed or were indifferent. There was plenty of discussion about what should be done with this information.

After much deliberation, the DSR-TKA National Council has determined that the organization cannot successfully recruit members using the current model. Once again, we are thrown into upheaval. However, the National Council has pledged to reorganize DSR-TKA and continue offering awards and grants as well as carry on the tradition of publishing *Speaker & Gavel*. This seems like a dim message, but I can assure you we are committed to providing valuable, unique service to the greater forensic community. While our future is ever changing and we may function differently than many organizations, DSR-TKA is ready to serve you now and in the future.

Ben Walker

President

Delta Sigma Rho-Tau Kappa Alpha

Ben Walker is an Assistant Professor and the Director of Forensics at Southwest Minnesota State University.
